Output Services does not provide any image editing or imposition services.
These are the sole responsibility of the student\client.
Files may not be amended in Output Services facilities nor should clients be inside of production areas while jobs are running.

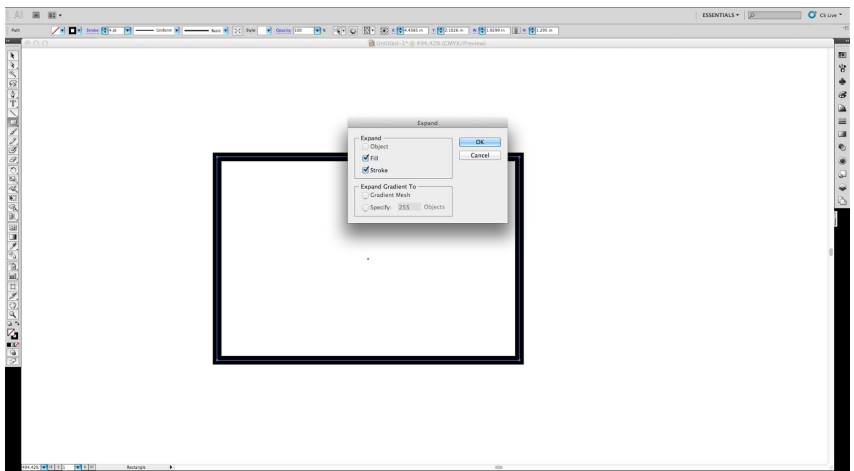

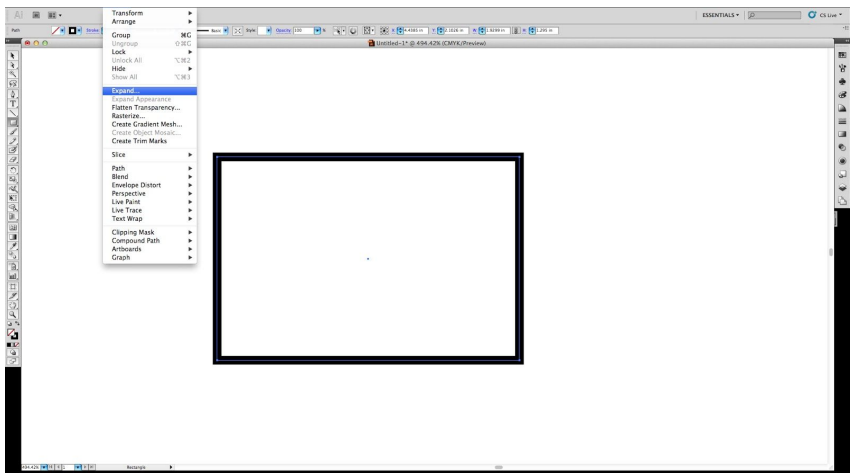

Tips for setting up a file for vinyl using Illustrator:

Small details or text (e.g. under 22 points) will produce **INSUFFICIENT CUTS** or **WILL NOT BURNISH**

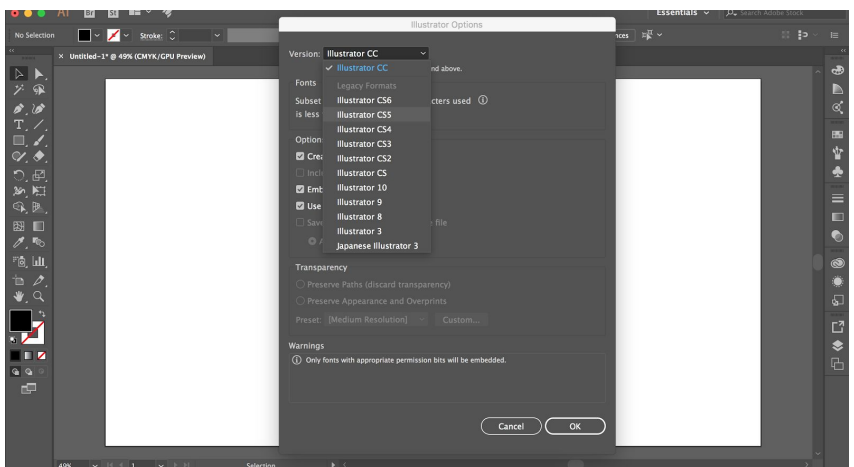

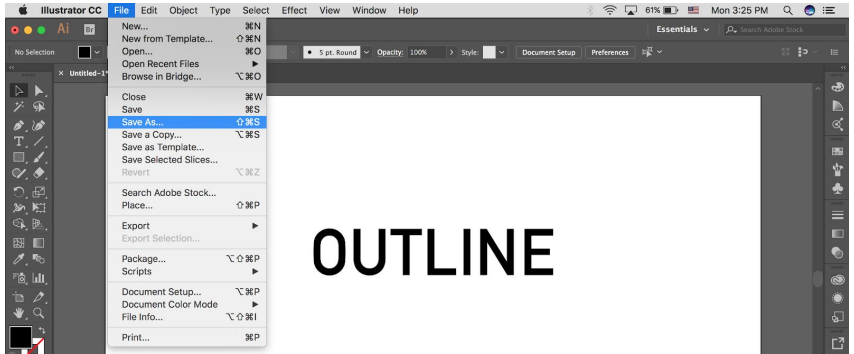

Remember to **OUTLINE ALL TEXT ELEMENTS**

If you are using a path or lines make sure to **EXPAND LINES**.

Save a CS5 compatible version
